IN A CULTURE OBSESSED WITH THE PERFECT FLAVOUR, RICH AROMA, HIGH-QUALITY PICK-ME-UP COFFEE, IT IS CRUCIAL TO FIND A SUPPLIER WITH EXPERIENCE TO DELIVER THE ULTIMATE BREW.

Discover our great range of Nespresso®* compatible capsules.

Our Bomcafé® specialty coffee capsules might look like ordinary coffee pods, but we've squeezed in over two decades of global coffee expertise to deliver the ultimate homebrew. They're made with aluminium for the cleanest and fresh flavour experience. In addition, Bomcafé® coffee capsules are fully recyclable through our capsule recycling schemes supported by local partners.

Our goal was simple – produce a capsule espresso as close to the café experience as possible. Using only sustainably sourced coffee, we have crafted a selection of coffee blends to suit all taste profiles.

These are the iconic flavours of your favourite café, redesigned for home or offices.

Our diverse range consists of single origins and our own signature blends. Whether you enjoy a mild coffee with notes of chocolate or you prefer a dark and strong espresso to get you going, we've got the perfect capsule for you. For those craving the taste of coffee without the caffeine, we also offer a mountain-washed and Swiss Water Decaf. Certified Organic. Ripened at the highest altitudes around the world between the Tropic of Cancer and the Tropic of Capricorn. So no matter the preferences, we are sure to have a Nespresso®* compatible capsule to satisfy different tastes and aromas; there is something for everyone.

Our range is best enjoyed as an espresso or with milk and has been crafted to give great cut-through in milk. And best of all, with each sip you take, you are helping us to support coffee-growing communities at origin.

- Certified Organic.
- Sealed to lock in the freshness.
- Suitable for vegan and vegetarians.
- Made with pure coffee (100% arabica beans).
- Our coffee beans are roasted weekly and packed daily for optimum freshness.
- 100% recyclable aluminium capsules (TerraCycle Recycle Scheme).

*Aluminium Capsule

THE JOURNEY TO PERFECTION

*Aluminium is a perfect barrier to oxygen, light and humidity/moisture to protect the freshness and aromas of high-quality coffee over time. In addition, it is infinitely recyclable and is one of the most widely recycled materials in the world.

Why do our capsules taste better?

Our capsules contain the finest coffee blends only. The same specialty grade coffees are used by the best high-end and independently owned cafés in the world.

The grind setting affects the solubility of the coffee. The finer the grind, the greater the surface area and the therefore solubility. Our capsule espresso extracts slower than other capsules thanks to the super-consistent grind process and high-tech roller grinder.

Varying brew temperature based on roast level affects the solubility of the coffee. We completely redesigned our roast profile with a high top temperature to maximise the solubility of the coffee.

We fined tuned our premium blends of Brazil and other high-quality organic coffees from different coffee-producing regions to highlight the rich sweetness and increase the roast depth.

We chose aluminium capsules to pierce with incredible precision and deliver the best flavour. It seals to lock in the freshness.

*Recycling: Aluminium is infinitely recyclable.

Chai tea is a fragrant, spicy tea that may help boost heart health, reduce blood sugar levels, aid digestion and help with weight loss. Although most of these health benefits are backed by science, they are generally linked to the ingredients used in chai tea rather than chai tea itself.

Bomcafé® Chai and Tea signature brew beverage is based strictly on traditional Indian chai tea ingredients and flavours, savouring over 5,000 years for a perfectly balanced Chai Tea and Latte.

Chai Tea (spicy) or Masala Tea is Australia's favourite Chai Tea, with more cups of Chai Latte consumed in Australia every day than other similar products. It is as versatile as it is delicious, suitable for Chai Tea, Chai Latte, Iced Chai and Chai Frappes. Perfectly balanced, featuring a black tea base and a secret blend of aromatic herbs and spices for an indulgent beverage, hot or cold.

ORGANIC SUGARS

AUSTRALIAN SUGARS

Organic Sugars

Sachet 20g

ORGANIC SUGARS

- A CENTURY OF PURITY –

Sugar contributes to excess consumption of energy, which then contributes to the development of weight-related conditions, including cardiovascular disease and type 2 diabetes. In addition, high intakes of sugar (above 20-25% energy) can also have an adverse impact on dietary quality and nutrient intake.

In Australia, sugarcane ripens in the sun and, once cut or harvested, the juice in the stalks is removed using a crushing process. At a sugar mill, the juice is heated to remove the water and the raw sugar crystals that form can then be refined.

Sugar in Australia is made from sugarcane **plants**, and yes, it is vegan.

Bomcafé Raw Sugar (brown and white) is a versatile sugar that adds a soft honey-like flavour and warm golden colour to the kitchen and all café creations. Great tasting and made from the sweet juice of natural and organic Australian sugar cane, it's a pantry must-have whether you're cooking a sweet and delicious dish, drinking tea or making a favourite dessert.

This premium sugar has an intense flavour and works well in all type of coffee and when sprinkled over sharp fruits such as grapefruit.

- No GMO.
- 100% Natural & Organic.
- Available in Sachets of 3grm Serves.
- Perfect For Portion Control of Sugar Intakes.
- Suitable for Vegan and Vegetarians.
- Packed in a controlled atmosphere for the highest quality.

SAO TOME WATER

NATURAL ARTESIAN WATER

Good hydration is one of the most critical aspects of the diet – drinking enough liquids to keep the fluid levels in the body topped up helps ensure that all bodily functions can take place as normal.

On a remote tropical island over 250 km from the nearest inhabitant land, a pristine rainfall water stream slowly filters through dark volcanic rocks into a sustainable ancient artesian aquifer. The artesian well is located at the UNESCO-listed Biosfere Reserve in the two-island nation of Sao Tome & Principe, a second-smallest African country in the Gulf of Guinea, straddling the Equator. It's an undiscovered tropical paradise.

Every drop of SAO TOME Water contains rich and essential natural minerals and electrolytes that make it uniquely tasteful and refreshing.

Perfected by nature and protected by dense natural forestry surroundings, SAO TOME Water is undoubtedly a gift from an UNTOUCHED EDEN.

SAO TOME Water has the potential to become the choice of discerning top chefs, fine restaurants, hotels, cafés, airline companies, sports and leisure venues around the world.
